1 he taught us new skills that we were not familiar with, he made us go out of our comfort zone.
2 awesome attitude towards subject material that can appear daunting but is explained in such a way that it is easy to break down and understand. overall enjoyable work environment
3 Professor Taylor taught us how to efficiently work using modules for environments. He also had us organize our files which helps.

1 he would explain things a little to fast, but he was able to explain things as many times as we needed to
2 Sometimes I would get stuck on something and as I took extra time to fix those mistakes I got behind and thus very lost there after.
3 Not on the top of my head, no.
4 Maybe just a bit quick paced? Was a little difficult to catch up during the lectures.
5 He would sometimes go a little too fast for me on the lectures
