

<b>Course:</b> ANIM 1020 02 - 3D Animation Production: Core Concepts	<b>Department:</b> ANIM
<b>Responsible Faculty:</b> Kevin Taylor	<b>Responses / Expected:</b> 12 / 15 (80%)

**Q1 - Comments on facilities used for class (classrooms and labs):**

**Response Rate:** 75.00% (9 of 12)

1	good	
2	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.	
3	Very appropriate. No complaints.	
4	The classroom was spacious enough, nice setup and setting.	
5	I found that the classroom/lab had frequent problems running Maya 3D 2017 over the 16-week course. The program would often crash or slow down making modeling unbearable and the class unproductive.	
6	Felt rather cramped in room size.	
7	Cool	
8	Classrooms are fine.	
9	Classroom was pretty clean and there was always room for everyone to work.	

**Q2 - Comments on equipment used for class:**

**Response Rate:** 83.33% (10 of 12)

1	needs more powerful computers	
2	Would be nice to have computers that didn't crash maya as often as they do.	
3	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.	
4	The Maya program had a tendency to be laggy when used for long periods of time.	
5	I found that the classroom/lab had frequent problems running Maya 3D 2017 over the 16-week course. The program would often crash or slow down making modeling unbearable and the class unproductive.	
6	Equipment can do with an upgrade in the next year (maybe?)	
7	Could have been more powerful in able to run maya.	
8	Cool	
9	Computers felt a bit under powered; many classmates were having the computers freeze at times.	
10	Computers were pretty good although some didn't work at times.	

**Q3 - Comments for the media center:**

**Response Rate:** 58.33% (7 of 12)

1	n/a	
2	n/a	
3	good	
4	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.	
5	None thus far.	
6	No comments.	
7	N/A

Q11	How do you rate the course overall in meeting the stated learning outcomes?					9	2	1	0	0	12	1.2	1	1	.62

Responses: [E] Excellent=1 [2] 2=2 [3] 3=3 [4] 4=4 [P] Poor=5

**Q12 - Course Planning and Organization**

Response Rate: 83.33% (10 of 12)

1	good	
2	We pretty much followed the schedule of assignments for the course.	
3	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.	
4	We did not use the book required for the class at all inside or outside the class. I'm still not sure why the book is listed for the course.	
5	Very well organized and planned out.	
6	It went smoothly enough.	
7	I found that we had a set schedule and everything we needed to know for that assignment was outlined in the syllabus but when it came to class time planning or organization was more laid back than most.	
8	I feel like this course could be extended into 2 different classes like a 1 level and a 2 level specifically because it could go into more detail, while also extending into different techniques and also rigging which this oddly doesn't cover	
9	Every day we had a clear cut goal we needed to fulfill and our professor offered what services and advice he could to help us meet those goals	
10	Cool	

**Q13 - Communication/ Interaction**

Response Rate: 66.67% (8 of 12)

1	good	🔍
2	fine	🔍
3	any time there was a question, and there were a lot, our professor gave us the attention and time we needed to come up with an answer	🔍
4	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.	🔍
5	The comments on the assignments were always helpful and insightful.	🔍
6	Ideas were communicated clearly and efficiently.	🔍
7	I found that when I would ask Kevin a question he wouldn't answer it instead he would fabricate a different idea of what the question was. The interactions were normally unhelpful for things I could fix on my project. Where instead of helping me by teaching he would do it for me and expect me to learn it from that.	🔍
8	Greta	🔍

**Q14 - Assignments, Exams, and Grading**

**Response Rate:** 75.00% (9 of 12)

1	the assignments were well thought out and made us delve into all the possibilities of strictly the modeling functions on maya	🔍
2	made sense	🔍
3	fair	🔍
4	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.	🔍
5	I think that getting evaluations over assignments like its a professional level is good, but I think grades should not also reflects how good it is on a professional level.	🔍
6	For the feedback I was getting on my assignments and the fact that there were only four assignments for a 16-week course, excluding the test that popped out the 2nd to last week of class, I was unimpressive with the assignments and grading.	🔍
7	Assignments had an appropriate amount of time devoted to them.	🔍
8	Assignments had varied applications and skill sets to be learned.	🔍
9	Assignments were properly graded in my opinion and they were helpful in understanding the purpose of the course.	🔍

**Q15 - Course Results/ Outcomes**

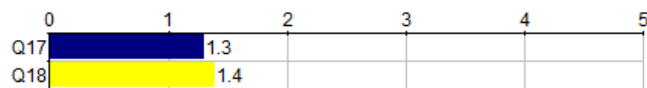

**Response Rate:** 75.00% (9 of 12)

1	learned a lot	🔍
2	good	🔍
3	ended up with three great looking projects	🔍
4	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.	🔍
5	I learned	🔍
6	I feel like I learned the required course material and now have a basic understanding of 3D modeling and the fundamentals behind making a good 3D model.	🔍
7	I actually look forward to just playing around with 3D modelling whenever I can over this coming summer.	🔍
8	Expectations are clearly talked about and well defined.	🔍
9	Course results would be I came out knowing how to make 3d models but the answers that exist still were never really answered thus my expectations were never really met.	🔍

**Q29 - Course Planning and Organization**

<b>Faculty:</b>	Taylor, Kevin										
<b>Response Rate:</b>	58.33% (7 of 12)										
1	the assignments and classes always had ample time to work on our projects while also learning the methods we needed to complete them										
2	good										
3	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.										
4	N/A										
5	I found that we had a set schedule and everything we needed to know for that assignment was outlined in the syllabus but when it came to class time planning or organization was more laid back than most.										

6	Course was well organized.	
7	Course followed the syllabus almost exactly, and topics were covered in detail.	

<b>Q30 - Communication/ Interaction</b>		
<b>Faculty:</b> Taylor, Kevin		
<b>Response Rate:</b> 66.67% (8 of 12)		
1	the professor was always willing to listen	
2	instructor made it a point to help each person with their issues and answered any and all questions	
3	good	
4	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.	
5	Kevin was frequently available out of class and would always be happy to help with questions.	
6	I found that when I would ask Kevin a question he wouldn't answer it instead he would fabricate a different idea of what the question was. The interactions were normally unhelpful for things I could fix on my project. Where instead of helping me by teaching he would do it for me and expect me to learn it from that.	
7	Easy to reach for outside of class help when it is needed. I really appreciate him taking time to reach out to me when I missed class to help me get caught up or make sure that I was caught up on an assignment. I hate that he's leaving. I really enjoyed having him as a professor for the past two semesters and I really appreciate his willingness to help.	
8	Communicated ideas effectively.	

<b>Q31 - Assignments, Exams, and Grading</b>		
<b>Faculty:</b> Taylor, Kevin		
<b>Response Rate:</b> 58.33% (7 of 12)		
1	good	
2	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.	
3	N/A	
4	Grading was fair.	
5	For the feedback I was getting on my assignments and the fact that there were only four assignments for a 16-week course, excluding the test that popped out the 2nd to last week of class, I was unimpressive with the assignments and grading.	
6	Felt a bit as though a Kevin expects a lot from his students, even a bit much	
7	Assignments took an appropriate amount of time	

<b>Q32 - Course Results/ Outcomes</b>		
<b>Faculty:</b> Taylor, Kevin		
<b>Response Rate:</b> 58.33% (7 of 12)		
1	good	
2	We need an actual game lab, without getting kicked out by German class.... Better computers that have an Operating System. and just updated software in general.	
3	Outcomes are what I expected.	
4	N/A	
5	I learned a lot from this course, instructor guided the class through the proper principles to achieve good usage of 3d design software and the techniques required to be proficient	
6	I can expand my mechanical knowledge of modeling in Maya with the fundamentals I learned in this class.	
7	Course results would be I came out knowing how to make 3d models but the answers that exist still were never really answered thus my expectations were never really met.
